
UltramapGlobal

Partner Services

UltramapGlobal is Dedicated to the Protection of The World's Most Important Subsea Cables.

Select Partnerships with World Class Providers of Monitoring Hardware, Guard Vessels and Marine Liaison.

UltramapGlobal partnerships work in two ways.

1. Other World Class Service Providers Partner With UltramapGlobal.

World class specialist partner with us to become part of what we can offer to you. We combine their services with our five core offerings to give our customers an UltramapGlobal complete solution.

Our 5 core offerings are:

- UltramapGlobal Software Services
- AssetMonitor®
- UltramapGlobal Monitoring Services
- UltramapGlobal Data Services
- UltramapGlobal RED

And because of our partnerships with others, we are also able to offer services including:

- Monitoring Hardware
- Guard Vessels
- Marine Liaison – and more.

2. UltramapGlobal Partners With Other World Class Service Providers.

We partner with others, such as World Class providers of Cable Installation Services and Cable Monitoring Services.

We become part of their portfolios, just as they became part of ours because UltramapGlobal provide protection and support service for the cables that they install and maintain.

Explore how we can help you personally. Please call Jeff Taylor, Head of Business Development on +44(0)7796 888910, email jeff.taylor@ultramapglobal.com or visit UltramapGlobal.com.

ULTRAMAP GLOBAL

AssetMonitor®
